

# DAX Copilot download/install guide

This guide walks you through how to download and install the PowerMic Mobile app and navigate to DAX Copilot. You will need to perform this download as DAX Copilot is accessed from the PowerMic Mobile app. (Note: There is no app in the App Store called “DAX Copilot.”) Instructions to activate PowerMic Mobile are included at the end of this document for users who have a license for both DAX Copilot and PowerMic Mobile.

## Download instructions for the PowerMic Mobile app

**Step 1:** Open the App Store and search for PowerMic Mobile.  If your organization uses mobile device management (MDM), please check with your administrator. Note: PowerMic Mobile requires iOS 15 or greater.

**Step 2:** Download the PowerMic Mobile app.

## Activation instructions for DAX Copilot

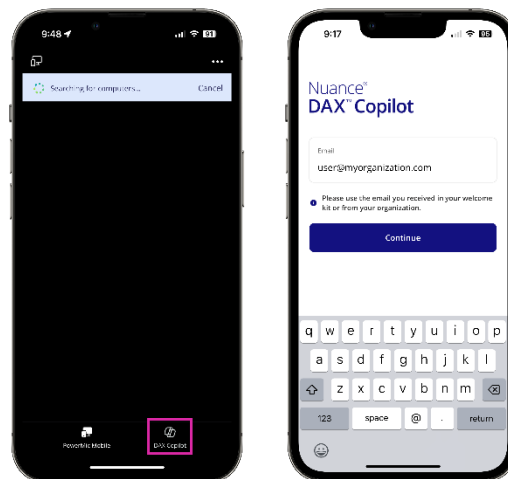

### Step 1:

Select DAX Copilot from the tab bar at the bottom of the PowerMic Mobile screen.

If you have a valid license, DAX Copilot will open automatically.

**Enter the email address** provided to you by your administrator to access DAX Copilot. (This will likely be your organizational email address.) Select **Continue** to log in.

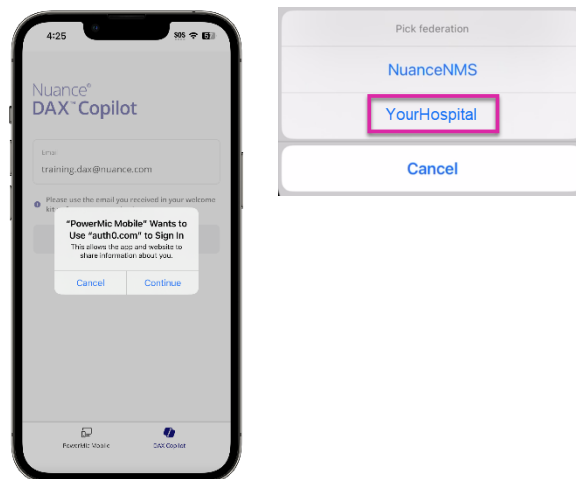

If you believe you should have a DAX Copilot license and it does not open, see your administrator.

### Step 2:

Select **Continue** to enable PowerMic Mobile to connect.

Select your federation. This can be found in the email from your organization. In the example here, you would choose “YourHospital”. See your administrator if you have any questions.

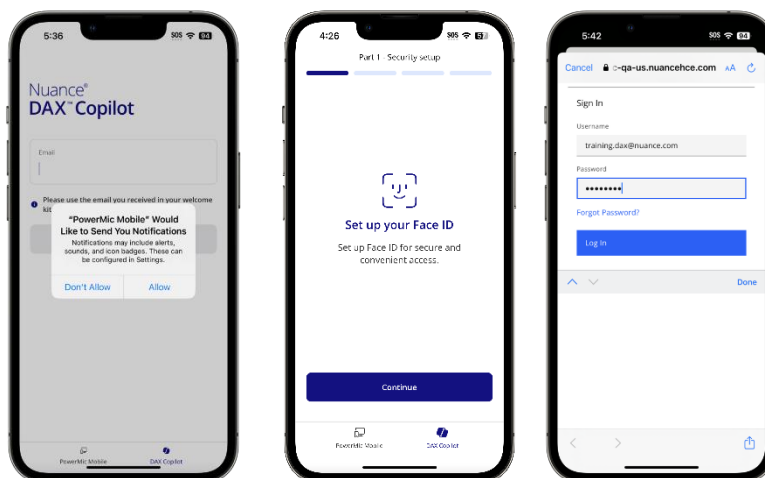

### Step 3:

You may be prompted to receive notifications and/or to set up Face ID.

**Enter your email and password.**  
Then select **Log in**.

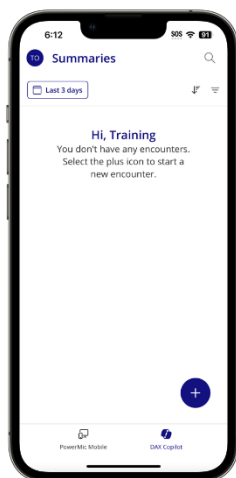

Contact your administrator with any questions about your registered email.

### Step 4: Verify your email

The first time you log in, you may be prompted to verify your email address. Enter your email address and select **Next**. Follow any prompts from your organization. You may need to repeat this step until it connects.

Congratulations! You are ready to use DAX Copilot in PowerMic Mobile!

## Activation instructions for PowerMic Mobile

***If you are an existing PowerMic Mobile user, no action is required to activate PowerMic Mobile. If you are a new user to PowerMic Mobile or have a new device, follow the instructions below.***

### Before you begin:

- Ensure you have received an email from your organization containing your configuration link.
- Make sure you can access the email from your device so you can use the configuration link to easily set up PowerMic Mobile app. If necessary, forward the email to your device or save the configuration link somewhere on your device where you can access it during setup.

To activate PowerMic Mobile:

**Step 1:** Open the email from your organization on your mobile device.

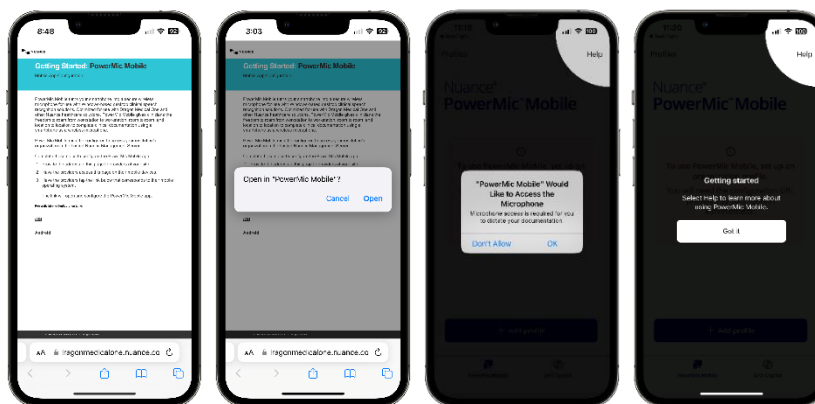

**Step 2:** Open the **configuration link**.

### Step 3: Select iOS and then select Open.

This will launch the PowerMic Mobile application on your device.

Select **OK** to give permission for PowerMic Mobile to use your microphone.

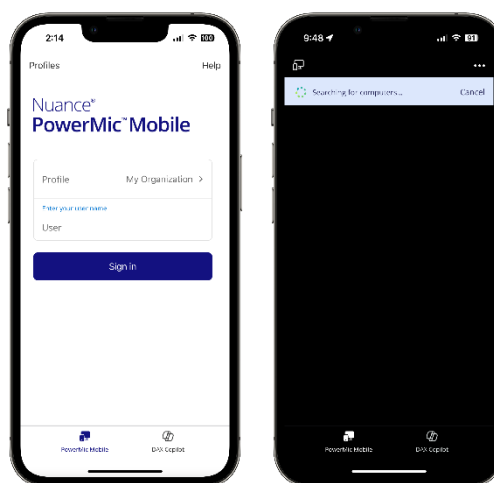

Select **Got it** to get started.

### Step 4: Log in

Sign in to PowerMic Mobile with your DAX Copilot login given to you by your administrator (this will likely be your organizational email address).

Once logged in, PowerMic Mobile will say “searching for computers” and attempt to pair with Dragon Medical One.
