Your full name

Your Clinic/Organization Name

# Exercise 7: Create an Auto-Text Command

Dictate:     "The patient was evaluated by the psychiatric liaison, who feels at this time, the patient does not meet criteria for psychiatric admission. The patient denies suicidal or homicidal ideation and will contract for safety. Additional resources will be provided upon discharge"

"Select All"

"Make that an Auto-Text"

# Exercise 8: Create an Auto-Text Command with Variable Fields '[ ]'

Dictate:     "Discussion with the patient's mother was held regarding the risks and benefits of repeat radiation. Considering that the patient has had **[several]** CT scans in the past **[month]** and that there is no clinical evidence of acute appendicitis today, the mother has decided to decline a CT abdomen/pelvis."

"Select All"

"Make that an Auto-Text"

# Exercise 9: Create a Step-by-Step Command

Dictate:  "Manage Commands"

Name the Command 'Copy That'

Click on **New Step,** Select **Press Hotkey** from the dropdown list

On your keyboard, press Ctrl+C

Click Apply All and then Close the window

# Additional Practice

Dictate:  The patient is a 64-year-old male who presents with chest pain. His primary care physician is Dr. Trujillo. He reports that the pain started three days ago. He describes it as sharp, mid sternal pain, radiating to his right arm. He also complains of associated shortness of breath, cold sweats, nausea. He denies vomiting, rectal bleeding, or tarry stools. He denies history of heart attack. He does have a history of COPD, CAD, arthritis, hypertension and hyperlipidemia. He is currently taking lisinopril for blood pressure.
